The diagram illustrates the relationship between three source files in a C++ project. At the top is a header file, `WinValidator.h`, located at `D:/ClionProjects/TicTacToeOverLan/src/server/`. Below it are two source files: `InternalGameServer.cpp` on the left and `WinValidator.cpp` on the right, both also located in the same directory. Blue arrows point from each source file to the header file, indicating that both source files include the header file.
