

TextFieldWidget::render

```
graph LR; A[TextFieldWidget::render] --> B[Widget::isVisible]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text 'TextFieldWidget::render'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'Widget::isVisible'. Both boxes have a thin black border.

Widget::isVisible
